PROFESSIONAL PROFILE

Back-end Developer with 3 years of experience in software development, system optimization, and problem-solving. Currently working at Automind, focusing on bug analysis and resolution for Autoload, a bulk cargo terminal management platform. Proficient in ERP and CRM development, with a strong self-learning ability and dedication to software engineering.

Skilled in C#, .NET, TypeScript, JavaScript, and SQL Server, applying best coding practices, SOLID principles, and modern architectures like MVC and Clean Architecture. Passionate about efficient algorithms and scalable solutions.

EDUCATION

Bachelor's Degree in Computer Engineering – Jorge Amado University (2023 – 2027)

WORK EXPERIENCE

Automind – Back-end Analyst (Nov/2023 – Present)

- Bug analysis and resolution in the Autoload System, ensuring stability and performance.
- Integration of the system with automation processes and field equipment.
- Application of best development practices to enhance efficiency and maintainability.

Segline Business – Full Stack Developer (Jun/2022 – Nov/2023)

- Developed a complete ERP and CRM for Telemarketing and Loan Services.
- Built a system from scratch using C#, .NET, React, and SQL Server.
- Focused on performance optimization and system scalability.

TECHNICAL SKILLS

- ✔ Programming & Frameworks: C#, .NET, TypeScript, JavaScript, NodeJS, React
- ✔ Database: SQL Server
- ✔ Desktop Development: WPF, Windows Forms
- ✔ Architecture: MVC, Clean Architecture, SOLID
- ✔ APIs: Development and consumption of REST APIs
- ✔ Others: Focus on performance, scalability, and best coding practices
